

# Bonnell

Open-Coil Innersprings

Imagery and listed specifications are noncontractual and subject to change without notice.

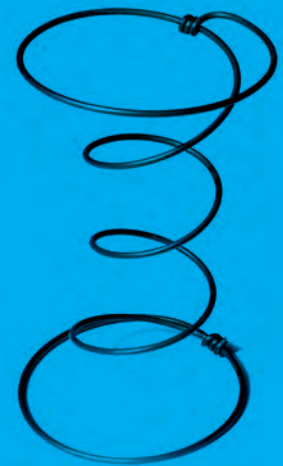

## Dependable and long-lasting support.

Leggett & Platt offers the finest-quality **Bonnell** innerspring systems available. Each spring is produced from wire drawn to our own exacting standards for greater uniformity and performance. These units offer unbeatable stability, strength, and durability.

Manufactured using high-speed computer-controlled technology to ensure consistency and improved productivity, our Bonnell units are available in a wide variety of heights and specifications.

- Stress-relieved to hold their shape and support characteristics
- Bonnell innersprings create a durable and long-lasting sleep surface
- High-quality wire from our vertically integrated wire-drawing process
- Innersprings sleep up to **28% cooler** than foam\*

**Bonnell** open-coil innersprings, the mainstay of the industry, make a versatile, supportive, and highly resilient sleep surface.

### An industry leader bringing you a new industry standard.

Leggett & Platt is a diversified manufacturer (and member of the S&P 500) that conceives, designs, and produces a broad variety of engineering components and products for the bedding industry and other market sectors worldwide.
