

The signature design of Hourglass™ pocketed innersprings delivers initial softness and relaxing comfort, followed by increased firmness and support.

- **Innovative Design** – Wider at the top and bottom for a soft feel, with a more tightly formed centre that provides firm support as weight is applied.
- **Responsive Support** – This iconic spring responds quickly to the shape and movement of individual bodies as they change sleeping positions.
- **Distinct Performance** – Variable-rate geometry gives Hourglass™ its unique look and responsive comfort characteristics.
- **Stress-Relieved Wire** – Holds its shape and provides greater durability and performance consistency.
- **Quality Steel** – Leggett & Platt draws its own wire to ensure quality-controlled steel in every spring.

Hourglass™ variable-rate geometry pocket springs
