

Imagery, non-woven colours, and listed specifications are non-contractual and subject to change without notice.

Create a unique and compelling comfort story with Anatom<sup>®</sup>, the ultimate zoning application.

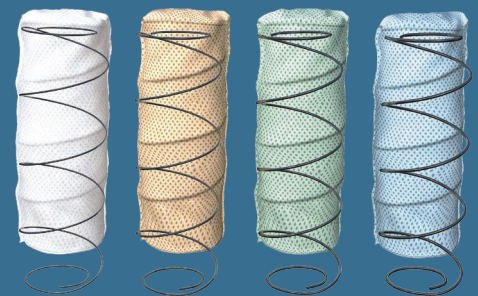

## Anatomic zoning, specified comfort.

Anatom<sup>™</sup> sleep systems are engineered to perfectly adapt to the body for unprecedented support and comfort with precise levels of specified anatomic zoning. Four different firmness levels can be positioned anywhere within the unit, creating **customized comfort for any body type**.

For versatile and unique sleep design concepts, choose Anatom precision pocket systems, the ultimate in personalized, zoned comfort.

- Premium-quality innersprings, with specified anatomic zoning
- Four levels of firmness within a 20% range
- Pocketed innersprings help reduce partner disturbance and roll-together
- High-quality wire from our vertically integrated wire-drawing process
- Innersprings sleep up to **28% cooler** than foam\*

Configure your own **customised solution** with four different firmness levels.

### An industry leader bringing you a new industry standard.

Leggett & Platt is a diversified manufacturer (and member of the S&P 500) that conceives, designs and produces a broad variety of engineering components and products for the bedding industry and other market sectors worldwide.
